

I am opposed to letting LPFM stations take priority locally over stations such as K-LOVE. I listen to K-Love everyday and it would be very discouraging to have a local station take priority. K-Love provides me with what I am looking for as a local resident. I have access to a station that is not local and they broadcast items of public interest to me as a Christian. They also broadcast items of interest concerning community events locally and nationally. Please reconsider allowing LPFM stations to have priority. Thank You!
